The Teal Dragon Learning Lab is a five day sampling of the Teal Dragon Learning Lair which is a framework consisting of the seamless integration of mental health and educational infrastructures; the goal of which is to heal youth through education, therapeutic intervention, and parental and community empowerment.

The Dragon Child Learning Lair

The Global Virtual Therapeutic School for Conscious Learners

In the wake of the COVID-19 pandemic, suicidality among children are increasing. Internet addiction, anxiety, depression among families are at an all time high. Parents are ill-equipped to manage the complex challenges their children face in navigating their virtual realities and deserve hands-held guidance to support them. Our current standard educational system also lacks seamless integration with mental health services as well as having profound curricula content gaps in areas such as self-healing, nutrition, emotional regulation, sex education and digital hygiene.

The Teal Dragon Learning Lair bridges this educational gap and through *therapeutic integration, parental support, and innovative technologies*, enables comprehensive life learning that meets the needs of today's child. Therapeutic services such as talk therapy, psychiatric medication management, as well as integrated therapies such as energy healing and soul integration are seamlessly integrated into the educational curriculum to create optimal scaffolding for every child. We work hand in hand with our families to ensure that caregivers are being supported wholeheartedly. Every parent deserves to be empowered and have the parenting skills to provide their children with the guidance they need to thrive.

Our multi-model approach includes comprehensive skill-based training in cognitive, emotional, and spiritual arenas. The school is designed to meet the needs of a diverse set of learners and utilizes progressive technologies to increase engagement for optimal learning.

"We believe that every child deserves to receive quality education that is relevant and joyful, prepares them to live balanced lives, and empowers them to become activist for social good."
